PROFESSIONAL SUMMARY

B.Sc. Computer Science Graduate (2026) with hands-on experience building full-stack web applications using React, Node.js, Java, and PostgreSQL. Developed and deployed multiple projects including a professional networking platform and a real-time chat application. Seeking entry-level software development opportunities to contribute and grow as a software engineer.

EDUCATION

Bachelor of Science in Computer Science | 2023 – 2026

Pillai College of Arts, Commerce and Science, Navi Mumbai | CGPA: 8.01

TECHNICAL SKILLS

Frontend: React.js, HTML5, JavaScript, Tailwind CSS, Figma (Wireframing, Prototyping, Interaction Design)

Backend: Node.js, Express.js, Java, Hibernate ORM, REST APIs, Socket.io

Databases: MongoDB, MySQL, PostgreSQL

CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks

AI & Automation: Generative AI Tools (ChatGPT, Claude, Gemini), Prompt Engineering, AI API Integration

Other: Git/GitHub, CMS (Strapi), Clerk Authentication, Python (Tkinter, Matplotlib)

PROJECTS

Arcane – Real-Time Chat Platform | March 2026 – May 2026

- Architected real-time messaging with Socket.io/WebSockets — instant delivery, typing indicators, and live online status.
- Built a Connection Request Gating System with Node.js/Express and MongoDB; restricts DMs to accepted peers only.
- Secured auth with JWT and Bcrypt; protected API endpoints and client routes via custom ProtectedRoute components.

BuildNet – Full-Stack Professional Networking Platform build-net.online | Nov 2025 – March 2026

- Networking platform for professionals; built with React, Node.js, and PostgreSQL.
- Clerk auth with JWT session handling.
- Strapi CMS feed with scalable content types and author-post relationships.
- Mobile-first UI with React and Tailwind CSS; responsive hamburger navigation.
- Independently deployed frontend and backend to production.

Trading Website (NullClass) – React Stock Market Simulator trading-website-nullcass.netlify.app | Jul 2025 – Aug 2025

- React stock market simulator with real-time data and dynamic sections.
- Live index updates (Nifty 50, Sensex, Bank Nifty), top gainers, and most-bought stocks.
- Portfolio simulator, market order system, and financial news feed

Notes Manager Application – Java & Hibernate ORM | August 2025 – Sep 2025

- Java CRUD app for note management using Hibernate ORM.
- Entity-DAO-Service architecture for clean separation of concerns.
- HQL/Criteria queries with Hibernate Session and Transaction management.
- OOP, exception handling, and annotation-based ORM mapping.

Data Structure Visualizer – Python Interactive Tool | Nov 2024 – Dec 2024

- Tkinter + Matplotlib app to visualize data structures and sorting algorithms.
- Step-by-step animations for Arrays, Stacks, Queues, Linked Lists, and more.
- Bubble, Insertion, and Quick Sort with color-coded element highlighting.

KEY STRENGTHS

- Strong problem-solving and analytical thinking skills.
- Quick learner with the ability to adapt to new AI tools and technologies rapidly.
- Experience integrating AI APIs and building AI-powered features into web applications.
- Hands-on experience with both frontend and backend development across multiple real-world projects.
- Familiarity with prompt engineering and generative AI tools (ChatGPT, Claude, Gemini).
